Summary

Full-stack developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js) with a strong background in building responsive, scalable web applications. Proficient in modern technologies like JavaScript, TypeScript, and SQL, with a passion for delivering high-quality code and enhancing user experiences.

Education

Dhirubhai Ambani Institute of Information and Communication Technology (DAIICT) 2019 – 2023

B.Tech in Information and Communication Technology **CGPA: 7.32**

Sarswati School, Borsad 2017 – 2019

Higher Secondary Certificate (Science) **Percentage: 93.33%**

Sardar Patel Vinay Mandir, Borsad 2017

Secondary School Certificate **Percentage: 87%**

Technical Skills

Languages/Frameworks: JavaScript, TypeScript, React.js, Redux, Node.js, Express.js, MongoDB, SQL, HTML, CSS, C, C++, JQuery

Tools: Git, Github, Azure DevOps, Visual Studio Code, Postman, Power BI, Tableau, SQL Server

Professional Experience

Software Engineer July 2023 – Present

MAQ Software, Mumbai, India

- Maintained and improved web applications using React.js, TypeScript, SQL, and Fluent UI to ensure scalability and performance.
- Collaborated with cross-functional teams to deliver impactful solutions for evolving business needs.

Associate Software Engineer Jan 2023 – June 2023

MAQ Software, Mumbai, India

- Built responsive web applications using React.js, TypeScript, and SQL during a six-month internship.
- Optimized codebases to enhance application performance and streamline user interfaces.

Projects

Blogify:

Technologies used: MongoDB, Express.js, React.js, Node.js, Tailwind CSS

- Developed a full-stack blog application with role-based access control, enabling users to view blogs and admins to create, update, and manage content securely using MongoDB, Express.js, React.js, and Node.js.
- Designed a responsive UI with Tailwind CSS, ensuring a seamless experience across devices and enhancing user engagement.

Connectify:

Technologies used: MongoDB, Express.js, React.js, Node.js, Socket.IO, Tailwind CSS

- Developed a real-time ChatApp using the MERN stack enabling seamless two-way communication.
- Implemented JWT-based authentication to ensure secure user login and session management.
- Integrated Socket.io for real-time, bidirectional communication, allowing instant messaging between users.
